SUMMARY

HND in Information Technology undergraduate at SLIATE, ATI Galle with a strong interest in Full Stack Web Development and software engineering. Skilled in developing responsive web applications using modern frontend and back-end technologies, with a passion for problem-solving and creating user-friendly solutions. A collaborative team player with strong communication and leadership skills, eager to gain industry experience through a Full Stack Developer internship, contribute to real-world projects, enhance technical expertise, and grow into a professional Full Stack Software Developer.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C#, PHP, Python, Kotlin
Frontend: HTML5, CSS3, JavaScript (ES6+)
Databases: MySQL
Tools & Platforms: Git, GitHub, VS Code, Flutter, Android studio

EDUCATION

Higher National Diploma in Information Technology *2024 – Present*
Sri Lanka Institute of Advanced Technological Education (SLIATE), ATI Galle
Relevant Coursework: Software Engineering, Database Systems, Web Application Development, Object Oriented Programming, Computer Networks.

G.C.E. Advanced Level Examination *2023(2024)*
Art Stream | Index No: 7178573
Sinhala — B | Geography — B | ICT — C

G.C.E. Ordinary Level Examination *2019*
Index No: 92272053 | Results: 3A, 2B, 4C

PROJECTS

Smart Parking Management System with Number Plate Recognition. *2026*
Tech Stack: Python, PHP 7.4+, MySQL 5.7+, HTML5, CSS3, JavaScript (ES6+), Apache (WAMP), Font Awesome, Google Fonts

- Developed a web-based smart parking management system with Automatic Number Plate Recognition (ANPR) using Python for automated vehicle entry and exit.
- Implemented secure user authentication, role-based access, vehicle registration, and parking slot management using PHP and MySQL.
- Integrated real-time parking slot availability, automated vehicle check-in/check-out, and parking history management.
- Developed an automatic parking fee calculation and payment management module based on vehicle parking duration.
- Built an admin dashboard to manage users, vehicles, parking records, parking slots, and generate reports with search and filter functionality.
- Designed a responsive and interactive user interface using HTML, CSS, and JavaScript, providing an efficient and user-friendly parking management experience.

Nova — AI Personal Assistant. *2025*
Tech Stack: Python, HTML, CSS, JavaScript. 2025

• Developed an AI-powered web-based personal assistant that provides question answering, web search, weather updates, date & time information, and basic calculations through natural language interaction.
• Built a responsive user interface using HTML, CSS, and JavaScript, integrating Python backend services to process user requests and generate real-time AI responses.
• Implemented intelligent features such as voice input/output (if applicable), conversation history, task assistance, and a user-friendly chat interface to enhance productivity and user experience.

Hidden Ceylon — Travel & Tourism Website. *2025*
Tech Stack: HTML5, CSS3, JavaScript, MySQL

• Designed and developed a responsive travel and tourism website showcasing popular destinations, tour packages, hotels, and travel services with an attractive user interface.
• Implemented interactive features including destination search, image galleries, package details, booking/contact forms, and smooth navigation using JavaScript.
• Enhanced user experience with responsive design, animations, interactive sliders, and mobile friendly layouts, ensuring accessibility across different devices.
• Created informative pages for travel guides, customer reviews, FAQs, and contact information to help users plan their trips effectively.
• Optimized website performance with clean, semantic HTML, organized CSS styling, and efficient JavaScript, delivering a fast and engaging browsing experience.

CERTIFICATIONS

- Certificate in English
- Diploma in Tamil — Academy Of Indian languages (Sri Lanka).

EXTRACURRICULAR ACTIVITIES

- Continuously building and deploying real-world web applications to sharpen full-stack engineering skills.
- Capable of creating professional graphic designs, photo editing, branding materials, logos, posters, banners, and social media content using Adobe Photoshop and Adobe Illustrator.

LANGUAGES

- Sinhala — Native
- English — Professional Working Proficiency
